## HISTORY, BACKGROUND & EXPERTISE

Founded in 2001, Occupational Safety Consultants has worked with hundreds of clients nationally. With more than 15 years of experience in health and safety, coupled with extensive hands-on field knowledge, the company, the team and its founder apply a wealth of knowledge to managing and mitigating risk for clients in general industry, construction, transportation and healthcare. Prior to joining Occupational Safety Consultants in 2010, Mr. Waterman earned his journeyman electrician certificate in 1979 and worked for 30 years in the electrical construction industry. He brings four years of direct experience in health and safety where he has worked as a field services team member conducting job site audits and working with on-site management in the identification of jobsite hazards and implementation of recommendations and hazard control measures. During his career, he has worked as a construction supervisor, project manager, general foreman and trainer where he was responsible for identifying or addressing health and safety issues, developing written safety and health programs and site-specific procedures, and developing and delivering industry-specific training.

## INDUSTRIES & MARKETS SERVED
