HISTORY, BACKGROUND & EXPERTISE

Founded in 2001, Occupational Safety Consultants has worked with hundreds of clients nationally. With more than 15 years of experience in health and safety, coupled with extensive hands-on field knowledge, the company, the team and its founder apply a wealth of knowledge to managing and mitigating risk for clients in general industry, construction, transportation and healthcare. For the past two decades plus, Mr. Sliker has worked in various capacities in health and safety with the New York State Department of Labor, including positions as a Safety Inspector, Mine Safety Trainer, Senior Safety Consultant, Senior Safety Trainer and Safety Supervisor. In these roles, he has overseen work across Syracuse, Utica and Binghamton. In addition, he has experience in developing training materials used in manufacturing and construction. Early in his career, he spent many years conducting safety inspections across various industries.

PROFESSIONAL HISTORY & AFFILIATIONS

Occupational Safety Consultants, Trainer and Consultant (2012-Present)

New York State Department of Labor

Safety Supervisor (2006-2012)

Supervised safety staff in three offices, including Syracuse, Utica and Binghamton. Oversaw scheduling of work and reviewed all outgoing reports to ensure that accurate information was being provided. Analyzed and reported to senior management results across multiple key indicators.

Senior Safety Trainer (2003-2006)

Developed training materials used to educate manufacturing and construction clients. Coordinated training for various employers; assessed the impact of programs offered.

Senior Safety Consultant (1990-2003)

Conducted safety inspections of small-to-medium sized employers. Assisted employers in establishing health and safety programs. Formulated recommendations on how to manage and control risk and devise mitigation plans to address hazards. Analyzed injury and illness trends to determine where employers should invest their resources.
